International Conference on
FOOD SCIENCE & TECHNOLOGY
Emerging Food Processing Technologies towards Global Food Security

Venue: Rome, Italy

November 13-15 2017

Organized by
Cenetri Publishing Group

In Collaboration with

Food & Drink International
Asia Food Journal
IngredientsHub.com

Food Business People Network
Dear Colleagues and Partners,

I have the privilege to welcome you to the International Conference on Food Science & Technology Conference going to be held during November 13-15, 2017 in Rome, Italy.

The security, safety and quality of food are always in the front line of the attention of the general public and regulators. The order of importance varies depending on the socio-economic conditions of the countries, regions. Government officials and producers are continuously facing with newer and newer challenges in assuring the safety of food due to emerging and prevailing risks. They should be alert for reoccurring known risks as well, such as avian flew sweeping through Europe.

Regulators and official control bodies must set appropriate standards and be at continuous alert to make timely actions against scrupulous, irresponsible, only profit oriented producers applying unauthorised ingredients in food and feed including those used to protect of plants and livestock.

The analysts are playing key role in identifying new substances and detect unexpected old ones which may present hazard for consumers or adversely affect the self-life of food. A few cases from the recent issues (microbial effects of packing materials, monomers, softeners penetrating to food from packing materials; contaminated feed leading to unacceptable residues in animal products, fatal microbial contamination spread by propagation materials, adulteration of food).

The technological developments, such as introduction of nanoparticles in food, application of new technologies and packing materials for extending storability and improving the quality of food require close cooperation of researchers, manufacturers and regulators to carefully assess the safety of food produced.

The Conference offers a unique forum for all stakeholders to learn from each other’s practice, exchange experience and establish personal contacts. The success of the previous congress held several parts of the world guarantees that taking part in the forthcoming conference will satisfy the participants’ expectations.

Let’s meet in Rome, most beautiful European city with numerous historical sites!!!
Event Highlights

The food sector is one of the most important industries in Italy, employing around 3,85,000 people and generating a total turnover of about EUR 135 billion in 2015, with exports amounting to EUR 36.9 billion. After several years of suffering from the domestic economic downturn, the Italian food sector’s performance has rebounded since 2014, benefiting from lower raw materials and energy prices.

Italy is the 4th largest food and drinks manufacturer in the European Union (EU) and Italy’s food and drinks industry is the country’s second-largest manufacturing sector. Italy is still a tradition country when it comes to food and food habits. In general, Italians prefer healthy good quality food and are willing to pay for it but at the same time there is a large market segment for low price products.

Food Science and Technology is an exciting multidisciplinary field that prepares majors with a comprehensive knowledge of the biological, physical and engineering sciences to develop new food products, design innovative processing technologies, improve food quality and nutritive value, enhance the safety of foods and ensure the wholesomeness of our food supply.

Conference Sessions

- Advances in Food Science and Technology
- Integrated Food Functionality
- Food Additives, Contamination & Toxicology
- Functional Foods and Nutraceuticals
- Food Standards and Quality Assurance
- Food Processing and Packaging Technologies
- Food Quality and Preservation
- Food Safety & Defense
- Food and Public Health Nutrition
- Aquatic food Marketing & Seafoods
- Food Informatics, Regulations and Packaging
- Food Principles and Laboratory
- Instrumental Analysis of Foods
- Research Perspectives on Food Science & Technology
The Government College University, Faisalabad has emerged as a leading center of learning and research in a short span of time. It is ranked 5th best university of Pakistan by Higher Education Commission of Pakistan. The University with its dynamic faculty and innovative syllabi has become a catalyst of intellectual, social and industrial uplift. It caters to the diverse needs of society by imparting education in almost all the major fields of learning. The GC University’s journey started as a primary school in 1897 in the present building of Govt. College for Women, Karkhana Bazar, Faisalabad. It was promoted to High School and Intermediate College in 1905 and 1924, respectively. It was elevated to the degree level in 1933 and postgraduate disciplines were introduced in 1963. The long journey that started with the humble beginning reached its climax when it was granted the status of

### Agenda – At a Glance

**Monday | November 13, 2017**  
Main Conference Day 1  
09:00 – 09:30 am opening ceremony

**Morning Keynote Sessions:**
- Facts & Discussions - Industry Panel  
- Afternoon Lunch  
- Breakout Sessions  
- Evening Networking

**Tuesday, November 14, 2017**  
Main Conference Day 2

**Morning Keynote Sessions:**
- Afternoon Lunch  
- Young Research Forum Sessions  
- Evening Networking

**Wednesday, November 15, 2017**  
Main Conference Day 3

**Morning scientific track Sessions:**
- Afternoon Lunch  
- Poster Sessions  
- Evening Networking

### Organizing Committee Members

- **Arpad Ambrus**
  Hungary
- **Devi Prasad Juvvadi**
  India
- **Luisa Mannina**
  Italy
- **Rong Murphy**
  USA
- **Alberto Ritieni**
  Italy
- **Zohar Kerem**
  Israel
- **Carla Vartanian**
  Lebanon
Keynote Talks

Title: Effect of processing on pesticide residues in food
Prof. Dr. Arpad Ambrus
IUPAC Awaredee, Hungary

Title: Impact of New Food Trends to Food Safety and Quality in Food Manufacturing Organizations
Dr. Rong Murphy
Vice President Quality Assurance and food Safety, Maple Leaf Farms, Inc, USA

Title: Food analysis and food safety in particular
Dr. Alberto Ritieni
Università di Napoli Federico II, Italy

Special Session

Title: Practical aspects of cultivating Food Safety Culture in Food Supply Chain
Dr. Syed Farhat Raza
Senior Consultant Food Safety & Quality, UK
Speaker Highlights

Imran Khan Kangwon  
National University South Korea

Santiago Benito Saez  
Polytechnic University of Madrid, Spain

Deepika Chnadra  
Gautam Buddha University India

Wei Ning Chen  
Nanyang Technological University, Singapore

K Elfazazi  
INRA Morocco

Alfredo Cassano  
Institute on Membrane Technology Italy

Giuseppina Paola Parpinello  
University of Bologna Italy

Byoung Kwan Cho  
Chungnam National University Korea

Sandra Guerrero  
Universidad de Buenos Aires Argentina

Pubali Dhar  
University of Calcutta India

Belahsen Rekia  
University El Jadida Morocco

Baraem Pam Ismail  
University of Minnesota USA

**SPONSORSHIP AND EXHIBITION OPPORTUNITIES**

Gain a competitive edge by taking advantage of sponsorship opportunities to effectively market and position your brand.

To talk about opportunities

Email: foodscience@cenetriconferences.com

(or)

Call +1 (563) 447-3392
Certifications & Awards

Cash Prizes

| Best Oral | 199 $ | Best Poster | 199 $ |

Eligibility

- Young researchers (Post Doctorial fellows, Post Graduate Fellows, Trainees, Junior Faculty)
- The topic must fit into scientific sessions or must lie within the theme of the conference.
- Each individual student is allowed to submit only one paper (as first author or co-author).
